

OWNERS MANUAL

TKTURBO **TRU-KLEEN™** **TANK AGITATION**

INCLUDED IN THIS MANUAL:

Parts List | Setup Instructions | Operating Instructions

Quality Sprayers & Liquid Handling Equipment

Your TKTURBO Kit Should Contain:

PARTS LIST:

- a. TKTURBO Valve Assembly
- b. TKTURBO Agitator Assembly
- c. 3/4" Barbed Tee
- d. 3/4" EPDM Hose (4')
- e. BC10 Band Clamp

TOOLS NEEDED:

- Crescent Wrench or Channel Lock Pliers
- 1-5/8" Hole-Saw
- 5/16" Hex Driver or Standard Screwdriver
- Thread Sealant

INSTRUCTIONS:

1. Using a 1 5/8" hole-saw, place hole on front half of operation side of tank - approximately 3" above where the cone on the tank starts. **(Image 1)**

2. Remove the nut from the bulk head fitting (reversed threads) and install the agitator assembly from inside tank through the hole cut in the tank in step 1. Reinstall the nut onto the bulk head fitting and snug up to tank from the outside. Adjust the agitation assembly to a slight downward angle **(Image 2)**. Tighten nut until the rubber seal compresses **(Image 3)**.

3. Apply sealant (not included) to the threads of the valve assembly and spin the valve assembly into the agitator assembly until tight **(Image 4)**.
4. Attach included hose to the barbed end of the valve assembly and seal with a BC10 band clamp.

5. Feeding fresh water to the system can be accomplished in various ways. We have supplied a 3/4" hose barb tee to splice into a fresh water supply if you have one available **(Image 5)**.

OPERATION:

Open the fresh water inlet valve and start filling mixing tank, begin to add chemical when water is about halfway to the TKTURBO agitation nozzle.

Once chemical is mixed to satisfaction, close the inlet valve and then open the outlet valve on the mixing tank to discharge into sprayer.

NOTE: If large amounts of dry chemical are being used, multiple batches may be required.

NEED ASSISTANCE? 

Should you need spare parts or assistance with your TKTURBO please give us a call and we will do everything we can to help.

Thank you for purchasing a quality product from F/S Manufacturing!
